

# **Mountain Property Public Recreation Area**

**Between Highway 119 and Old Highway 31**

---

# Project Plan

**Photo of proposed mountain property trail**

Currently city owned, the mountain property situated directly across from the Siluria Mill District provides a unique opportunity for increased recreation and outdoor space in the community.

The project aims to transform the land into a public outdoor space. The project will create increased access to the lake on the property, improvements to the natural landscape, and walking trails which will eventually cross highway 119 and connect to the Buck Creek Trail.
